Attention: Mr. Al Kornmann

Gentlemen:

Enclosed you will find drawings of each type of bevel gear blank we are supplying for our No-Twist Mill Bevel Gears. Drawings have been marked up with typical tolerances, that we feel may be a little more realistic and still allow finished parts to be made to drawing specifications.

On the gears that are integral with the shaft we have changed a few of the radii to help in shop manufacture.

We would appreciate your comments on these drawings so that we might bring all our drawings up to date.

Very truly yours
